greater battle which the operators will wage throughout the country.

To the Halls of Congress

President Small said tonight after the meeting:

"Our plans are fully prepared and we will carry the fight to the halls of congress before we are through. We do not intend to declare a general strike throughout the country, but we will carry on a guerilla warfare which will continue until we secure justice and consideration. We will call a series of local strikes in various cities which will paralyze traffic. We intend to continue the fight until congress meets, when we propose to place the whole matter in the hands of the lawmakers."

No General Strike

NEW YORK, June 20.—As the result of a visit of Neill, the commissioner of labor and following suggestions made by him, an adjustment of differences between the Western Union and its operators has been reached and there will be no strike. This morning President Clowry of the Western Union addressed a letter to Neill, outlining the position of his company, and this was admitted satisfactory to all persons concerned.

ARIZONA & SAN DIEGO RAILROAD

Right of Way Is Only Thing Holding Back Construction on the New Line to Yuma

Announcement has been made by John D. Spreckels that actual construction work on the San Diego & Arizona railroad at this end of the line will be commenced as soon as the rights of way have been secured. Mr. Spreckels further stated that these rights of way are nearly all secured at the present time, says the San Diego Union.

Mr. Spreckels said:

"Mr. Clayton, Mr. Titus and myself, just returned from a trip of inspection to Carriz Canyon, where work is now being done in preparation for the laying of tracks. The sides of the canyon which is about twelve miles long, are of solid granite and the work now being done consists of cutting benches in these walls, the track to be laid along these benches. This work will give the railroad company legal control of the pass, which is to be used as an entrance to the desert, and will facilitate the building of the tunnels. The line when completed will be one of the most picturesque in the entire country."

"All the controlling points in the canyon are also being graded, the surveying parties working eastward and westward from the canyon. Another surveying party is working below the boundary line between Mexico and the United States between Jacumba Pass and Tia Juana."

The company will begin actual construction work in San Diego as soon as all the rights of way have been secured. These rights of way, including that through the property of the San Diego, Cuyamaca & Eastern railroad, are nearly all secured at the present time. The right of way through the property of the West Coast Lumber company is now being adjusted and the same is true in several other cases.

"Up to date the company has spent \$1,250,000 in rights of way and in actual construction work."

Hotel Like Noah's Ark

The inquiry for a man named Wolf at the Palmer house in Chicago evoked such response that Manager Vierbuchen asserted "a gamy collection of traveling men" was present.

"Have you a gentleman here named Wolf—Leopold Wolf?" the clerk was asked. Dave Lyon made the inquiry. He was answered in the affirmative and sent up his card.

"Just tell him there is a Lyon here after him," he said to the boy with a laugh.

"And if it will help any," said a traveling salesman standing near, "tell him a Bear is after him also." He then handed over his card, bearing the name Victor Bear, New York.

While they laughed over the incident John A. Fox of Cincinnati, secretary of the rivers and harbors congress, stepped up and said, "And to make it a gamy bunch, put a Fox into the kettle."

Before the quartet stopped laughing John W. Fish, who had just registered from Atlanta, and Charles W. Hunter from St. Louis joined the group, the latter saying, "I guess this will about finish the game," and invited the gathering out to supper with him at the Jungles restaurant.—What to Eat.

Finds There Is No Money in Ashes

Having exhausted his slender savings, John Ellmore, "the poor Altoona cobbler," who discovered the secret of burning ashes, must either sell his secret at a great sacrifice, go back to his bench or starve. Not a very enticing outlook to a man who for some months has been thinking in millions.

When Ellmore's discovery was first announced to the world, offers to buy it came to him thick and fast. At that time he was in a position to sell out for enough money to keep the wolf from the door for the remainder of his days.

Friends, however, persuaded him to decline the offers and form a company of his own to manufacture and market his formula. Accordingly it was decided to capitalize the concern at \$20,000, but when the time came no one would buy the stock and the company proved a fizzle.

Ellmore was a poor promoter. Ellmore had closed his humble cobbler's shop, but now, with his money all gone, he must return to it to make a living for himself and family.—Altoona dispatch to Philadelphia Press.
